LYMAN

Raccourcisseur de douilles électrique

Le raccourcisseur de douille Case Trim Xpress de Lyman procure aux rechargeurs la vitesse et la précision qu'il sont toujours recherché.

Le Case Trim Xpress possède sa propre source d'alimentation et un moteur puissant à vitesse variable, il n'est donc pas nécessaire d'utiliser des perceuses électriques ni d'acheter des moteurs séparés.

Le Case Trim Xpress va couper votre étui rapidement et proprement, simplement en poussant la douille contre la lame en carbure. Il est livré avec un jeu de 10 bushings conçus pour les calibres d'étuis à fusil les plus populaires.

Les bushings supportent et centrent la douille avec la lame, vous n'avez donc plus besoin de pilotes.

Le Case Trim Xpress va vous permettre de raccourcir environ 15 étuis à la minute!

De plus, le Case Trim Express est équipé d'une molette de réglage qui permet de "composer" facilement les longueurs de l'étuis par incréments de 0.001".

Pour finir, grâce à son boîtier compact, il ne prendra pas tout l'espace sur votre établi.

- Coupes rapides et précises - environ 15 étuis par minute
- Moteur à vitesse variable et fraise carbure ultra-forte et durable
- Livré avec 10 bushings s'adaptant à la plupart des douilles de fusil les plus populaires.
- Boîtier compact prenant peu d'espace sur votre plan de travail
- Plus besoin de pilotes
